

New-Product Approval — Attestation Evidence Report

prd:bank:fx:otc-vanilla — OTC Vanilla FX (Spot, Forward, Swap; Option at M5)

Product ID	prd:bank:fx:otc-vanilla
Version	1.0.0
Decision	D-FX-OTC-NPA-SCOPE-EXPANSION — approved · authority CEO (marc@tgv.co.za) · 2026-06-10
Approved scope	venue OTC · instruments [spot, forward, swap] · pairs ANY · counterparties ALL
Supersedes	prd:bank:fx:fx-swap-usdzar (retired → this product)
NPA gate	READY — 14/14 dimensions attested, 0 failed
Attestation level	Design-attested across all 14 dimensions (see Basis of approval)
Approved by	agent:atlas:npa-attestation-runner (per CEO decision)
Source	Canonical event store (ProductDimensionAttested / ProductApproved / Decision)

Basis of approval

All 14 NPA dimensions cleared the gate (none failed), so the product is approved. Each carries a **design-attested** verdict rather than implementation-attested because the broadened scope outruns the live substrate: spot is fully built; forward/swap revalue on a static forward curve with no forward-points accrual; “any pair” exceeds the seven wired ZAR pairs; “all counterparty types” exceeds the onboarded set; option is not built (M5). The recon:npa-coverage scan (below) is the living evidence base; the filed completion roadmap (Part D of the decision) tracks the lift to implementation-attested. The Result and Citation chain columns are canonical ProductDimensionAttested event data; the Evidence & open item column is the authored attestation rationale from the NPA run.

Per-domain attestation evidence

#	Domain	Result	Citation chain (tail)	Evidence & open item
1	Market risk	design-attested	Policies/market-risk-policy-v1.md · ORG-MK-09	Spot MTM live. Forward/swap revalue on a static forward curve (flat-discount approx); multi-pair VaR unproven. Open: live OIS discounting + multi-pair VaR.
2	Credit risk	design-attested	Policies/credit-risk-policy-v1.md · PROC-RISK-CLM-01	SA-CCR replacement-cost + PFE wired for FX. Open: validate across all counterparty types (bank/corporate/PSE/fund).
3	Liquidity risk	design-attested	Policies/liquidity-risk-policy-v1.md	Spot funding profile understood. Open: forward/swap settlement-ladder liquidity across any pair.
4	Operational risk	design-attested	PROC-OPS-SFBCP-01	Spot booking/settlement controls live. Open: forward/swap far-leg + NDF cash-settlement runbooks across the full pair set.
5	Operational readiness	design-attested	PROC-OPS-SFBCP-01	Spot end-to-end live; forward/swap booking present. Open: per-currency nostro/receivable/payable beyond 7 pairs — generalise suspense-free resolution.
6	Accounting	design-attested	Policies/accounting-policy-v1.md · IAS-21 · IFRS-9	Spot posting (PR-FX-001/002/PRIN/CLOSE) live. Open: forward-points accrual (IAS 21 §28) + swap far-leg posting rule.
7	Capital	design-attested	Policies/capital-management-policy-v1.md · BCBS-SA-CCR	FX RWA folds spot. Open: forward/swap SA-CCR add-on + multi-pair/all-counterparty capital.
8	Conduct	design-attested	Policies/conduct-of-business-tcf-policy-v1.md · FAIS-GCC	Institutional conduct controls in place. Open: FAIS appropriateness gate before retail/lower-tier eligibility is exercised.
9	AML	design-attested	Policies/aml-cft-policy-v1.md	Gateway screening live. Open: EDD coverage across all counterparty types.
10	Model risk	design-attested	Policies/model-risk-policy-v1.md · BCBS-MODEL-RISK-PRINCIPLES	Spot uses live quoted rate (tier-1). Open: forward/swap valuation-model validation; option pricing (Garman-Kohlhagen / vol surface) = M5.
11	Legal	design-attested	ISDA-2002-Master-Agreement · Policies/counterparty-policy-v1.md	ISDA 2002 + SA Schedule for institutional. Open: ISDA/CSA coverage across all counterparty classes.
12	Infosec	design-attested	ORG-CY-01	Threat-model reference held. No instrument-specific delta for the broadened scope.

#	Domain	Result	Citation chain (tail)	Evidence & open item
13	Privacy	design-attested	POPIA - s19 - 22	POPIA posture unchanged by instrument breadth; counterparty-data coverage scales with onboarding.
14	Tax	design-attested	STT - Act - 25 - of - 2007 · VAT - Act - 89 - of - 1991	FX tax treatment understood for spot. Open: STT/VAT review across all instruments + counterparty types.

Every citation chain begins with the common prefix D-FX-OTC-NPA-SCOPE-EXPANSION · D-NEW-PRODUCT-APPROVAL-POLICY; the table shows the dimension-specific tail.

Single-graph coverage scan (recon:npa-coverage, advisory)

The Principle-2 evidence base behind the attestations — Obligation/Objective → Policy → Procedure → Capability → UI.
Gaps per axis (clean-seed graph; counts vary slightly per reseed):

Axis	Finding
(a) Reg-horizon	50 FX-scoped obligations; 47 with no CLOSES policy edge; 11 objective-coverage gaps (SARB-PA / FSCA purpose axis)
(b) Policy	operational-readiness and tax have no policy hint — not yet graph-traceable to a policy
(c) Procedure	80 orphan procedures (no incoming GOVERNS edge)
(d) Capability	1 orphan capability (no incoming REALISES edge)
(e) UI surfacing	BA-RETURN / NOP returns-submission layer dark (demo-only). FX NPA badge re-pointed to umbrella ✓

Run total: 142 coverage gaps across axes a–e (advisory; never blocks). These are the worklist that lifts dimensions from design-attested to implementation-attested.

Appendix A — Full coverage-gap list (recon:npa-coverage)

Axis (a) — Regulatory horizon: FX-scoped obligations / objectives not addressed — 58 finding(s)

Sev	Subject	Detail
WAR N	OBL - ORG - AC - 03	FX-scoped obligation "Apply IFRS 9 hedge accounting (the IAS 39 carryover option is not elected per CEO election F1), designating and document" has no CLOSES policy edge
WAR N	OBL - ORG - AC - 10	FX-scoped obligation "Apply the IAS 21 framework for the effects of changes in foreign-exchange rates: measure and record transactions in each" has no CLOSES policy edge
WAR N	OBL - ORG - MK - 02	FX-scoped obligation "Provide best execution where required under the FMA and the FSCA conduct standards, taking all reasonable steps to obtain" has no CLOSES policy edge
